#### HOW STOCK IS CUT UP IN THE ROY M. & M. CO.

The Roy Mining & Milling company, organized at Provo, filed articles of incorporation Wednesday. Capital is \$55,000, in shares of the par value of 5 cents each, of which \$60,000 shares are treasury stock. Franklin H. Millet, president, holds 175,040 shares; John H. Stratton, vice president, 170,000 shares; Don C. Clayton, secretary and treasurer, \$8,750 shares. Paul A. Millet, with 66,250, and Walter Cox, with 49,480 shares, with the officers constitute the directorate.

The company will exploit claims in the Clifton mining district, Tooele county, known as Nephi, one and two; Roy, one and two; Roadside, one and two; Jesse, one, two and three, and the Ward, Survice and Mills.

#### DOINGS OF UNLISTED STOCKS ON EXCHANGE

During the open board trading on the mining stock exchange yesterday Bingham Central-Standard sold at 24½c and Weimer Copper at 3c a share.

Bingham Copper was quoted at 9c at 3½c, Bullion-Beck at \$1 asked, Demijohn at 12c asked, Ely Witch at 23c bid, Emma Copper 5c asked, Lehi Tintic 2¾c bid, Montana, of Tintic, 13½c bid, Tintic Volcanic at 2½c bid and Uintah Treasure Hill at 17½c at 18c.

Adrian B. Pembroke, Stock Broker, 54 West 2d South. Phones 758.

\$5.00 one tor "That Good Coal," and complimentary ticket to Lagoon.

Beautiful and through the systematic plan of development undertaken, there seems to be no question but that the property is going to develop into one of bonanza proportions. In the early days, as was the case in many other districts in those times, no attempt was made to do any systematic mining. The distance from reduction plants and being without rail facilities, the owners were unable to realize a profit out of anything but the high grade ores; which being the case, the property was subjected to the "gouging" process without regard to the condition in which the mine was left.

Mr. Sheahan came in from the property night before last laden with a well-filled sack containing a nice looking lot of samples of sulphides, which were obtained from the Alcyone claim and in which six feet of ore has been exposed showing average values of 16 per cent lead, 25 ounces in silver and \$1.50 in gold. The vein proper is twenty feet wide, lying in a contact between lime and porphyry, while the entire mass contains commercial values. Adjacent to the Alcyone is the Vegas claim, where three feet of commercial ore has been exposed.

The Silver King property consists of During the open board trading on the mining stock exchange yesterday Bingham Central-Standard sold at 244c and

6 Knives, 6 Forks, 6 Tablespoons 6 Teaspoons, Butter Knife, Sugar Spoon. Rogers ware, in a case for \$8.50 at McConahay's, 64 Main.

June is the month of weddings.

#### MINING STOCK EXCHANGE.

During Day's Trading.

Territory Is Making a Re- markable Showing.	Buildings, Compressor, Hoist, Drills and Electric Power Plant Are Ordered.	Depth of 200 Feet.	During Day's Trading.  The market exhibited a sagging tendency all through yesterday and it was only the supported stocks that were able to hold an even keel. Colorado might be	
The most encouraging news of the week comes from the Wihuja, the mine that is one day destined to be the Mohawk of Seven Troughs, says the Seven Troughs Miner.  In cutting out for a station at the 425-foot level the ore shoot has been disclosed. At this point the ore body is better and richer than at any level above. Between two and three feet of ore carry values that will mill \$100.  This strike, coming immediately upon the completion of the shaft to the new level, means much to Seven Troughs. With every succeeding level opened up on the Wihuja the ore has improved. At 265 feet the mine was the talk of the	The new Montana Mining company of Tintic, and of which John Roundy is president and general manager, yesterday placed an order for buildings and equipment with the F. C. Richmond company, which emphasizes in no uncertain maner the faith the promoters of the enterprise have in the property now in process of development. It was expected that the equipment would have been ordered ten days or more ago, but at the last moment the management made a contract for electric power, and that necessitated a change in the character of machinery that the different houses had been asked to submit prices upon.  The order placed yesterday and which is to be filled with the least possible delay,	Manager Hugh Killkenny of the Golden Head company's Park City property, which flanks the Lucky Bill and West Quincy properties on the south, announces that the working shaft, already down a considerable distance, is to be pounded down 200 feet more during the present season, and maybe more. News of the determination to resume operations at this promising property, which has been closed down for many months, will be received at the Park as an evidence that a revival of interest in the district is at hand, and it will go a long way in the stimulation of others who have been holding back since the panic of a couple of years ago.	hands. Following is the list of final quotations and record of sales made during the day:

#### Don't Heat the Kitchen

All the necessary family cooking may be done as well on a New Perfection Wick Blue Flame Oil Cook-Stove as on

the best coal or wood range.

By using the "New Perfection" Oil Stove, the annoyance of an overheated and stuffy kitchen is entirely avoided, even in midsummer. The scientific construction of the

## Wick Blue Flame Oil Cook-Stove

ensures quick work and a cool kitchen. The "New Perfection" has a substantial CALINET TOP for warming plates and keeping food hot after it is cooked. Also drop shelves on which to set small cooking utensils-every convenience, even to bars for holding towels.

Made in three sizes. Can be had either with or without Cabinet Top. If not at your dealer's, write our nearest agency.

Rayo Lamp is substantially made of brass,

and very handsome. Gives a powerful light and burns for hours with one filling. Portable, safe, convenient-just what every home needs. If not with your dealer, write our nearest agency. CONTINENTAL OIL COMPANY

There were released from the Taylor & Brunton sampling works yesterday thirteen carloads of ore from Utah mines.

thirteen carloads of ore from Utah mines.

The greaf mineral-bearing fissure in the Plutus company's property at Tinite has been opened up at a point all of 300 feet distant from the place where the ore was first encountered by Superintendent John Roundy, and while the management declines to designate it as a strike, it is admitted that some good ore is making through the quartz. It is considered simply a matter of drifting to learn where the ore breaks out into the beddings and forms payable deposits. A carload of fine ore from the original, the second to be shipped, is now on the way to market.

Seven Troughs Miner: Ore teams were

snipped, is now on the way to market.

Seven Troughs Miner: Ore teams were busy the past few days of this week hauling high grade ore to the Darby (Nevada) mill from the Hero-Nevada at Farrell. This shipment, while small, is exceedingly rich, and it merely presages what will come from this well known property as soon as the tunnel now being driven into the hill to get depth is finished.
